

Computer Chick Work Authorization Disclaimer:

Most Services carry a **30-Day** Labor warranty from date of pickup for same problem only, excludes virus and malware related issues, frame repair or water damage repair. New and Used parts carry a **30-Day** exchange or Store Credit warranty to cover manufacturer defects. Refurbished Electronics carry a **90-Day** Service warranty for Labor Only. NO RETURNS are accepted for Special Order Items. Special Order Items are subject to Vendor/Manufacturer Warranty ONLY. NO Warranty, refunds or exchanges are offered for opened Software. There is NO WARRANTY on Beekeeping Supplies. Cell Phone Screen warranties vary by Vendor. Any warranty will be voided if there are signs of neglect or physical damage such as being dropped, liquid damage, or repair performed by anyone other than Computer Chick.

Repair time and Part delivery time is not guaranteed.

Client agrees to pay any charges due upon picking up Asset(s). Client understands that charges may be higher than originally stated on a printed estimate, depending on changing cost of parts to be ordered and/or additional Services requested or required to successfully complete the Repair.

Any equipment left onsite longer than 30 days from the date it is ready to for pickup will be considered abandoned and becomes our sole property to dispose of as we see fit with no further notice to Client. Should we choose to store Asset(s) beyond 30 days, storage fees may be added (typically \$10/Asset/week). No refunds will be given on any deposits paid by Client, even if equipment is disposed of. To protect your assets, a copy of your receipt and/or a valid ID may be required to pick up the Asset.

Signing indicates having read and agreeing to the Computer Chick Terms and Service Agreement.

We accept CASH, BANK OR CREDIT CARDS FOR PAYMENT Checks are not accepted for payment - Thank you for not asking

NO CASH IS LEFT ON PREMISES WHEN STORE IS CLOSED.

**Please refer to the Computer Chick Terms and Service Agreement for full details on these and other issues*
